

7TH GRADE WEEKLY OVERVIEW

Week of October 26th-30th

Announcements & Upcoming Events:

Tuesday, November 3rd- Smarter Balanced Assessment Parent Information Night 6:00PM in the NHS Library

Tuesday, November 3rd- PAL Meeting at 7:00PM in the NHS Library

Thursday, November 5th- 5:30PM- Basketball Parent Information Night

Monday, November 9th- 8:45AM- Veteran's Day Assembly

Wednesday, November 11th- No School- Veteran's Day

Language Arts:

You'll receive a more in-depth overview in class on Monday, but here are the highlights! Your One Story Final draft is due on Friday. You'll need two copies of the final draft and the final draft of your cover, too. Tuesday's class will be an in-class revision workshop day. That will be a time to ask questions, revise, and collaborate with your classmates.

I'll also be available at other times during the week if you have questions. We'll use class time on Monday to work on this week's blog post. If you don't finish in class you'll need to finish it for homework.

The most important thing this week is to do a little each night. We'll be sharing them in class on Friday.

Friday- FINAL DRAFT DUE (Two copies) with Final Draft of your cover

Math:

We will wrap up surface area today with a study guide and then start volume. This is the last thing we will learn about before the unit test on Nov 12-13. This week we will concentrate on volume and next week we will study for the test. There will not be a surface area/volume quiz. That material will just be on the Geometry unit test.

Homework due on:

Tuesday - Finish Study Guide due

Wednesday - Number System HW due

Friday - Volume HW due

SCIENCE:

On Monday, we will work a little more on the scientific design, deepening our understanding of independent vs. dependent variables, as well as constants and controls. Tuesday students will receive their WEATHER EXAM and will bring it home to share with parents. Parents, please take the time to look over it and review how your 7th grader did, then sign at the top above their name.

Next we will start our Astronomy Unit. We will learn about the movements of the Sun, Moon & Earth as we go over the phenomenon of day/night, a year, season, eclipses and moon phases.

HOMEWORK: Show your weather test to parents and bring it back with their signature by Friday.

Social Studies:

Friday you received the study questions for the SS assessment on November 12th & 13th. We're expecting you to use our class activities, the experience of writing out own Constitution and your own research to prepare your answer for the assessment. We'll review the questions on Tuesday, November 10th in class.

DUE Friday- Research

ESPAÑOL: **"Mucho hablar y poco hacer juntos suelen ir."** (*Talking a lot and doing a little usually go hand in hand.*)

Español de la Comunidad (Mon): El Carrusel, part 2 (Mini Books with el señor W, Board Games with la señora Tharp or Technology with los señores Johnston y Brown)
