

7TH GRADE WEEKLY OVERVIEW

Week of March

7th- March 11th

**Announcements
& Upcoming**

Events:

Tuesday, March 8th-

North Hampton
Voting Day

Thursday, March

10th- Life Skills
Parent Night 6-
7PM, NHS

Mini-New York and author Tim Green

Language Arts:

Monday we'll wrap up our Country Research sheets and start working on the Country Position Paper to prepare for the start of our debate. If all goes well we'll start the debate on Wednesday during class. This will consist of opening statements and then writing potential resolutions for discussion during the debate. Then we'll introduce resolutions and hold debate on Thursday and Friday of this week.

Tuesday- Country Research Paper DUE

Wednesday- Bring your UN Folder with Country Position Paper completed to class.

Math:

This week we will continue with Combinations and Permutations and if we have time we will start multi-stage experiments. We will also take a Number System test on Thursday and spend some time reviewing earlier in the week. Lots to do to get ready for report cards! The Probability Test will be next week. If you have been out sick or on vacation please be sure to check in and get whatever notes or papers you may have missed. Set up a time to meet with me to go over any of it! Homework this week is to study for the number test: add, subtract, multiply, and divide fractions, decimals, and integers!

SCIENCE:

This week we will work on Episode 2. Groups will write a script and film it. We will have some speed and acceleration problems. We will also have one more "experimental design" lab to look at and figure out the hypothesis, independent & dependent variables, constants and the control. Finally, we will do a current event.

HOMEWORK:

Due Tuesday - Speed & Acceleration problems

Due Thursday - Current Event

Social Studies:

Your assessment is this week starting Wednesday and continuing on Thursday. We will have a review session on Tuesday in your discussion groups to continue the review we did last week in the lesson and activity.
